NTN

Cut right through downtime.

NTN BEARINGS FOR PF PAPER & FORESTRY

Your sawmill's production literally rides on the critical bearings that keep the lumber moving.

Start running longer and more reliably with NTN. Our bearings are engineered to tackle the brutal environments of mill work—and we back them with quick availability plus hands-on support, training and trouble-shooting.

SPAW/SPW Mounted Roller Bearing Units

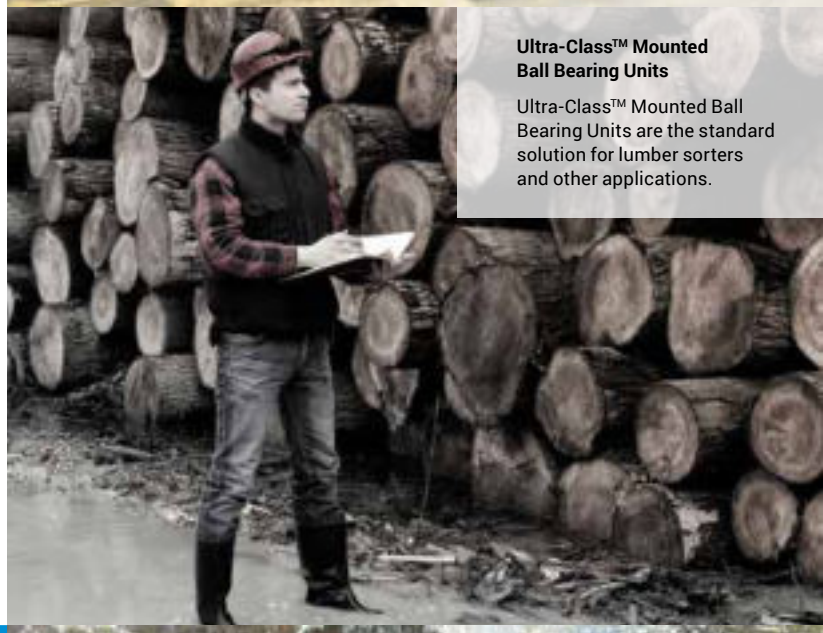
NTN's heavy-duty SPAW/SPW Mounted Roller Bearing Units outperform in the most punishing sawmill services such as debarkers and transfer tables

Built sawmill tough.

Heavily contaminated, abrasive and corrosive environments require bearings that can stand up to these harsh working conditions in addition to heavy impacts, shocks and vibration. NTN products are engineered to combat contamination threats, the number one bearing killer in mills, to keep your operation running strong.

Take your mill to the max.

To help deliver more uptime and output, NTN's heavy-duty products are built to exceed industry standards for durability in the most demanding conditions. With reliable products like NTN Ultra-Class™ Mounted Ball Bearing Units and SPAW/SPW Mounted Roller Bearing Units, you're ready to meet your mill's demanding production targets.



Ultra-Class™ Mounted Ball Bearing Units

Ultra-Class™ Mounted Ball Bearing Units are the standard solution for lumber sorters and other applications.

Sawmills worldwide have counted on us for decades to transform their transfer tables, conveyors and sawing equipment into a strategic advantage.

Beyond Bearings

Training. Installation Support. Trouble-shooting. And more.

When you choose NTN, your team is equipped with all the necessary tools and resources to get the job done right. From installation to problem-solving, we'll be there with the hands-on support you need to take on your toughest challenges. This includes extra services such as:

Technical Training Unit

On-site, mobile training unit offering specialized, hands-on instruction from NTN's technical team and always customized to your needs

Maintenance Training School

An intensive three day course on the design, application and maintenance of anti-friction bearings with hands-on workshops

eKnowledge

WEB-BASED TRAINING PROGRAM

Six online product training modules covering different bearing types and nomenclature that can be completed on your own schedule **(www.ntnamericas.com/eknowledge)**

NTN Bearing Finder

Customizable search tool featuring exhaustive data sheets, comprehensive part interchanges and interactive CAD drawings **(www.bearingfinder.ntnamericas.com)**

To move more lumber, call this number.

For all your on-site service and support needs with proper product selection, installation training and troubleshooting/problem solving, contact your local NTN Sales Representative or call **1-888-412-4122.**

For additional technical questions, email **techsupport@ntn.ca.**
