

OEM Gearbox Repair Kits

Kit benefits

Simple handling

- One package and part number for easier ordering, handling and storage.

Save time

- Every bearing needed for your repair in one box reduces your time when buying, and your risk of waiting for multiple part deliveries.

Lower costs

- You can save money on handling and administration costs from NTN when purchasing all required bearing components in one crate.

Fast delivery

- NTN's OEM gearbox repair kits are stocked in our warehouses for fast, direct delivery.

High-quality parts

- NTN guarantees that all the parts in our bearing repair kit are genuine OEM-quality parts manufactured in the USA or Japan.

Quick installation

- You can order the bearing repair kit that you need as soon as you know the model number of the gearbox. There is no need to wait until the gearbox is taken apart to find out what bearings need to be purchased.

Get all of the
OEM-quality
bearings you need
for your gearbox
repair with just
one part number!

Beyond Bearings

Training. Installation Support.
Trouble-shooting. And more.

When you choose NTN, your team is equipped with all the necessary tools and resources to get the job done right. From installation to problem-solving, we'll be there with the hands-on support you need to take on your toughest challenges. This includes extra services such as:

Technical Training Unit

On-site, mobile training unit offering specialized, hands-on instruction from NTN engineers

Product Training School

Three days of in-depth instruction from NTN engineers at headquarters
(go.ntnamericas.com/trainingschool)

eKnowledge

WEB-BASED TRAINING PROGRAM

Six online product training modules covering different bearing types and nomenclature
(www.ntnamericas.com/eknowledge)

NTN Bearing Finder

Customizable search tool featuring exhaustive data sets, comprehensive part interchanges and interactive CAD drawings
(bearingfinder.ntnamericas.com)
