

TO ENROLL

Trainingprograms@ntn.ca

The NTN Distributor Training Program is an intensive 3-day course that will “jump start” the new distributor employee and give deeper understanding to the experienced. The workshop provides a combination of classroom lectures and hands-on labs that enable graduates to serve their customers with excellence.

Who should attend?

- › Employees of NTN Authorized Distributors who want a comprehensive bearing introduction
- › Employees who are new to bearings or have advanced experience
- › Those who want a greater understanding of bearing fundamentals and increased confidence to support customers with bearing application needs

You will experience:

- › Product modules in design, nomenclature and typical uses of each product group
- › Bearing essentials such as lubrication, radial internal clearance, fitting practice, handling & storage, and failure analysis
- › Hands-on labs with a focus on practical installation techniques
- › Market segment forums to relate your new bearing knowledge to specific applications
- › Challenging homework assignments to reinforce curriculum

FREE TO EVERY PARTICIPANT:

A comprehensive bearing training manual, which will become a valuable on-the-job reference tool

A complete set of NTN general catalogues as well as increased professional knowledge and effectiveness

The chance to visit one of Canada’s most advanced bearing manufacturing plants

Distributor Training Program
